## 5. FIREFIGHTING MEASURES

### **Suitable extinguishing media**

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

### **Special protective equipment for firefighters**

Use personal protective equipment.

### **Specific hazards during fire fighting**

Fire Hazard Keep away from heat and sources of ignition. Flash back possible over considerable distance. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

### **Hazardous combustion products**

Carbon oxides

### **Specific extinguishing methods**

Use water spray to cool unopened containers. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes.

## 6. ACCIDENTAL RELEASE MEASURES

### **Personal precautions**

Remove all sources of ignition. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8.

### **Environmental precautions**

Do not allow contact with soil, surface or ground water.

### **Methods and materials for containment and cleaning up**

Do not allow contact with soil, surface or ground water.

## 7. HANDLING AND STORAGE

### **Precautions for safe handling**

Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Keep away from fire, sparks and heated surfaces.

### **Conditions for safe storage**

Keep away from heat and sources of ignition. Keep in a cool, well-ventilated place. Keep away from oxidizing agents. Keep out of reach of children. Keep container tightly closed. Store in suitable labeled containers.

**Storage temperature**

0 °C to 35 °C
