

GLG-1000 GRAFFITI REMOVER

GLG-1000 easily removes marks and graffiti made with ballpoint, felt pen, crayon, lipstick, spray paint and tape marks from surfaces. It has been formulated to quickly penetrate and dissolve stains and marks on surfaces including walls, lockers, bathroom partitions, brick, stone, tiles, stainless steel, brass, chrome, aluminum, enamel, glass, Formica, porcelain, fiberglass and other construction materials. This product is ideal for use in all public buildings, industries and institutions where vandalism has occurred.

FEATURES, ADVANTAGES AND BENEFITS

- Industrial strength graffiti remover
- Quickly and easily removes multi-layered marks and graffiti
- Effectively penetrated porous surfaces and dissolved graffiti, stains and marks

GLG-1000-1S6

GLG-1000 GRAFFITI REMOVER

DIRECTIONS FOR USE

Perform a spot test before use. Protective gloves should be worn at all times. Apply undiluted GLG-1000 on the affected surface using cloth. Let it stand for a few seconds before wiping clean. For stubborn graffiti, the product should be applied and left to penetrate the surface for 30-60 seconds before wiping down. Repeat this process until affected surface area is clean. In extreme cases, a nylon brush can be used to work the product into stained porous surfaces, after which the surface should be rinsed well with cold water. In order to ensure complete remove of graffiti it is essential that the cleaning process is performed after vandalism has occurred.

Description	
Physical State and Appearance	Clear, transparent liquid
Color	Green
Sediment	None
Odor	Mint
Specific Gravity	0.79 – 0.81
Flash Point	None

SAFETY REMINDER

Before using this product please ensure employees read and understand the product labels and Material Safety Data Sheet. Directions for use can be found on the label as well as the MSDS.
